

COMBINED MILL

Features

- It can be used for dual purpose for milling of rice and fine crushing corn flour/spices.
- High milling rate (over 75%) and low breakage of rice
- Less consumption of electricity
- Combined mill gasoline engine can be used where there is no electricity
- User friendly

Technical information

- Capacity 150-170 kg/hour
- Operation Semi-Automatic
- Electricity connection Single phase
- Motor power 3 HP and 7.5 HP for Gasoline
- Voltage 220 V
- Electricity consumption 1.35kw/hr
- Weight 70-73 kgs
